

Frostkiss® Hellebore Charmer is a delightful addition to any garden with its gorgeous, mottled claret-coloured flowers and dark green leaves that feature beautiful marbled venation. The flowers bloom for months, with flowers appearing in winter and continuing to early spring. With a perfectly compact, neat habit, Charmer is perfect for mixed containers to garden bed planting. This stunning Hellebore is a low-fuss and easy-to-grow perennial.

## Features

- Gorgeous mottled claret-coloured flowers
- Neat and compact shape
- Tough and easy-care plant

## Uses

- Enjoy indoors for up to three weeks\* before planting in your garden
- Bright and cheerful for shady nooks
- Plant under established tree canopies
- Containers or garden beds
- Stunning winter cut flowers

## Care

Water requirements are medium once established. Plant in any soil that is well draining. Tidy after flowering by removing old flower heads. If growing in containers or full sun, care should be taken not to allow to dry out completely. For best results, feed in late autumn and spring with a slow release fertiliser before and after flowering.

CAUTION: Harmful if eaten/skin irritant

\*Performance indoors will vary due to conditions within each environment.

**ORIGIN:** Netherlands // **SPECIES:** *Helleborus hybrid*
