

*Anemone nemorosa* 'Bowlle's Purple'

 Height: 30cm  
 Spread: 60cm

FULL SUN

PART SHADE

LONG FLOWERING

MIXED BORDERS

CONTAINERS

POLLINATOR PLANT

## FEATURES:

- Attractive pink flowers from late summer through autumn.
- A neat variety with hardy evergreen foliage.
- Ideal for low light areas.
- Easy to grow with minimal maintenance.

## SUGGESTED USES:

- Compact size ideal for containers and small gardens or spaces.
- Mass plant in difficult sites such as beneath tree canopies or low light areas.
- Colour and interest for shady areas.
- Wildflower or cottage style gardens.

## CULTURAL CARE

Grows well in most soil types that are moist but well draining. Occasional long soaks during extended periods of heat is recommended. No pruning generally required other than to tidy old flower stems or leaves. Feed during spring with a slow release fertiliser for best results. Mulch well to retain moisture during dry periods.
