

Ajuga reptans 'Pink Elf'

  Spreading ground cover

FEATURES:

- Spreading mound of bluish green foliage.
- Pink flower spikes appear during spring.
- Fast growing and low maintenance.
- Non-invasive, spreading ground cover.

SUGGESTED USES:

- Ideal as a carpeting ground cover along narrow strips next to paving or paths.
- Containers or general garden use.
- Ideal ground cover for small areas as well as for softening edges along paths and garden beds.
- Dense habit helps to suppress weeds.

CULTURAL CARE

Grows well in most soil types which are moist but well draining. Frost tolerant.

Best in part shade location but will tolerate sunny locations if given moist but well draining soil and some protection from harsh afternoon heat. Water needs are moderate but do not allow to dry out over extended periods of heat. No pruning required. Apply slow release fertiliser during spring for best performance.
