

Antirrhinum

SNAP IN BLACK™ Apricot

This plant is a registrable plant variety under section 43(6) of the Plant Breeders Rights Act 1994.

FEATURES

Evergreen, perennial variety of snapdragon with dramatic black colouring of new foliage.

A compact habit ideal for flower borders and containers.

Heavy flowering in spring with repeat blooming during the year.

Easy to grow and fast results.

This is one variety in a collection

... see more on our website!

USES

Containers and general garden use.

Mass plant for high colour impact in sunny mixed borders.

Attracts pollinators.

CARE

Grows well in most soil types which are moist but well draining - does not like to sit in wet conditions for long periods of time.

Prune to shape after a main flowering flush to encourage a dense habit.

Apply a slow release fertiliser during spring. Mulch well to help retain moisture during dry periods.

Fertilise regularly if grown in containers.
