

## *Acalypha reptans* 'Stephie'

Height: 25cm  
Spread: 60cm

FULL SUN

PART SHADE

CONTAINERS

MIXED BORDERS

LONG FLOWERING

POLLINATOR PLANT

### FEATURES:

- A prolific display of fluffy, tail-like blooms in bright crimson red from late spring, flushing throughout the warmer months and on into autumn.
- Naturally neat and compact habit with a lightly trailing habit ideal for rockeries and baskets.
- Easy to grow and ideal for small gardens or spaces.

### SUGGESTED USES:

- Containers or general garden use.
- Mass plant as a decorative ground cover.
- Can be grown indoors in bright light.

### CULTURAL CARE

Grows well in most soil types which are moist but well draining. No pruning is generally required although a light trim can be given during late winter to shape.

Apply a slow release fertiliser during spring. Mulch well to help retain moisture during dry periods. Fertilise regularly if grown in containers. Protect from frost.
