FEATURES:

- A colourful native ground cover which is under threat in its natural habitat in Victoria.
- Blue, funnel-like flowers continuously stud foliage from summer through to autumn.
- Ideal for either containers or gardens.

SUGGESTED USES:

- Native or wild flower style gardens.
- Rockeries, containers or hanging baskets.
- Mass bedding displays or cascading over rocks, embankments or retaining walls.
- Well suited to coastal zones.
- Small or narrow spaces.

CULTURAL CARE

Water requirements are medium.
Once established requires only occasional long soaks during extended periods of heat.
Low maintenance and easy to grow.
Apply a slow release fertiliser for natives in spring to encourage profuse flowering.
No pruning generally required.
Mulch well to help retain moisture during dry periods.
