

*Euphorbia x martinii* 'Rudolph'

Height: 50cm  
Spread: 50cm

FULL SUN

PART SHADE

MIXED BORDERS

CONTAINERS

FOLIAGE PLANT

WATER WISE

COASTAL

## FEATURES:

- Compact form of Euphorbia which will brighten dull winter days with a vivid display of glowing red tips.
- Sprays of tiny flowers appear in late winter.
- Low maintenance and easy to grow.
- Dry tolerant once established.

## SUGGESTED USES:

- Water wise for gardens or containers.
- Small gardens or spaces.
- Fast results for new gardens.
- Colour and interest for cooler months.

## CULTURAL CARE

Grows well in most soils which are well draining. Once established water requirements are very low but do not allow to dry out completely over extended periods of heat.

Generally no pruning required other than removal of spent flower stems to encourage bushy growth. When pruning use gloves as sap can be irritating to skin and eyes. Apply a slow release fertiliser during summer.
