

COPROSMA

'GOLDEN STAR'

INTENSE FOLIAGE COLOUR

'Golden Star' has been selected for its delightful earthy golden tones that will act as a valued colour compliment to Coprosma 'Ignite'. It is excellent for individual plantings, small hedges or containers. Extremely hardy and low maintenance.

FEATURES

- Outstanding foliage colour - summer colours are lime green with yellow & orange tones. In winter the colours deepen to intense orange with darker margins
- Attractive, glossy leaves
- Dry tolerant and hardy

USES

- Mixed garden beds
- Informal borders and low hedging
- Large containers
- Colour for interest- the perfect colour compliment to Coprosma 'Ignite'

CARE

Water requirements are very low. Dry tolerant once established. Feed regularly for optimum foliage colours. Trim to maintain shape through the year. Protect from harsh frost.
