- Attractive foliage
- Pollinator attracting
- Low maintenance, easy-to-grow perennial
- Compact, neat growth habit
- Late spring and autumn flowering

USES

- Perfect for produce gardens
- Spectacular and long-flowering pot plant
- Colourful and repeat flowering mixed border plant
- Path edges and mixed plantings
- Cut Flowers
- General landscaping and low informal hedging solution

CARE

Low water requirements once established. Plant in a well-draining potting mix in pots or enriched, good-draining soil in garden beds. Tidy after flowering by removing old flower heads. Feed in early spring with a slow-release fertiliser for best results. Prune plants back by a third in winter to encourage strong new growth in the spring.

ORIGIN: Australia // **SPECIES:** *Lavandula angustifolia* hybrid // **PROTECTION STATUS:** PBR Protectable
