

# Mona® Amethyst

*Plectranthus 'Mona® Amethyst' is the perfect shrub for shady nooks around the garden that will provide long floral displays. Deep richly coloured purple-pink flowers crown the deep-green serrated foliage throughout autumn. These bold flowers provide colour contrast to darker spots in the garden where it can sometimes be a challenge to find long-lasting colour. With a naturally neat, compact growth habit 'Mona® Amethyst' is well suited to growing in garden beds or pots or a splash of colour.*

CONTAINERS

UNIQUE FOLIAGE

HEIGHT 25-35CM  
SPREAD 30-40CM

## FEATURES

- Early and long season flowerer
- Deep and rich purple-pink flowers
- Shiny serrated leaves with purple underside
- Thrives in the shade
- Tough and easy-care plant
- Some dry tolerance once established

## USES

- Shaded gardens
- Understory plant to larger canopies
- Shady woodland plant
- Container garden
- Colourful & repeat flowering bedding plant
- Garden borders, filler or feature specimen plant

## CARE

Water requirements are medium once established. Will benefit from an occasional deep soak during periods of extended heat. If growing in containers, care should be taken not to allow to dry out completely. Plant in a well-draining potting media in pots or in an enriched soil in the garden. Tidy after flowering by removing old flower heads. For best results, feed in late autumn and spring with a slow release fertiliser. Keep protected from frosts.

**ORIGIN:** Rep. of South Africa // **SPECIES:** *Plectranthus hilliardiae* x *saccatus* // **PROTECTION STATUS:** PBR Protectable
