*Grewia occidentalis* LAVENDER STAR

 Height 1.5m  
 Spread 1m

## FEATURES:

- A compact evergreen shrub producing star shaped, lavender coloured flowers over spring into summer.
- Hardy and easy to grow - water wise.
- Pollinator friendly.

## SUGGESTED USES:

- Containers and general garden use.
- Non aggressive root system makes it a great choice for alongside paths and paving.
- Small gardens and spaces.
- Can be kept pruned as a bonsai specimen.

## CULTURAL CARE

Grows well in most soil types which are moist but well draining.

Pruning as required - if wanting to keep very compact, regular prunes will be tolerated, otherwise trim to after flowering to maintain a good overall shape.

Apply a slow release fertiliser during spring. Mulch well to help retain moisture during dry periods.

Fertilise regularly if grown in containers.
