

Isotoma fluviatilis FAIRY FOOTSTEPS

  Ground cover
Spreads up to 60cm

FEATURES:

- Australian native which forms a dense mat of lush, dainty green foliage.
- Fast and easy to grow in low light areas.
- Studded with soft blue flowers from late spring through to autumn.

SUGGESTED USES:

- Mass plant as ground cover for low light areas.
- Will cascade over rockeries, embankments and retaining walls.
- Edging for garden beds or filler between paving.
- Containers, baskets and general garden use.

CULTURAL CARE

Performs best in moist, well draining soils. No pruning is required. Apply a slow release fertiliser during spring for best results. Protect from drying out during extend periods of heat or times of low rain fall.
