

## *Incarvillea delavayi* PINK TRUMPET

 Height 40cm  
 Spread 70cm

FULL SUN

PART SHADE

MIXED BORDERS

CONTAINERS

LONG FLOWERING

FOLIAGE PLANT

### FEATURES:

- Large pink trumpet flowers produced from spring into summer.
- Fern-like foliage forms an attractive mound.
- Easy to grow and low maintenance.

### SUGGESTED USES:

- Perfect for sunny mixed borders or rockeries.
- Performs well in containers.
- Adds textural and exotic feel to outdoor entertainment areas.

### CULTURAL CARE

Grows well in most soil types which are moist but well draining. No pruning is generally required although removing spent flower stems will encourage further flushes and help maintain a neat habit.

Apply a slow release fertiliser during early spring. In very cold regions may become herbaceous with new, fresh foliage re-appearing in spring.
