

Nandina domestica 'Gulf Stream'

Height: 50cm
Spread: 50cm

FULL SUN

PART SHADE

MIXED BORDERS

CONTAINERS

FROST TOLERANT

WATER WISE

FEATURES:

- Beautiful lime-green foliage is bamboo-like with deep orange/scarlet tones in the cooler months.
- Compact, dense evergreen with rounded habit.
- Very hardy and water wise plant once established.
- Versatile and tolerant of a wide range of growing conditions.

SUGGESTED USES:

- Ornamental foliage year round.
- Mass plant low maintenance areas.
- Suitable for low, informal hedging/edging.
- Suitable for containers and general garden use.

CULTURAL CARE

Low maintenance and easy to grow in most soil types which are free draining. Watering requirements are low once established requiring only occasional deep watering over extended periods of heat.

Pruning not required. Apply a slow release fertiliser during spring for optimum results.

Frost and humidity tolerant once established.
