

*Ophiopogon planiscapus* 'Black Dragon'

Height 40cm  
Spread 40cm

FULL SUN

PART SHADE

FOLIAGE PLANT

EDGING

GROUND COVER

MIXED BORDERS

CONTAINERS

FROST TOLERANT

## FEATURES:

- Highly ornamental, deep black foliage all year round.
- Low clumping - ideal for edging or mass planting as ground cover.
- Very hardy, low maintenance and versatile, tolerating both sun and shade.
- Soft lilac coloured flowers in Spring
- Very dry tolerant once established.

## SUGGESTED USES:

- Ornamental foliage for container displays all year round.
- Rockeries and small gardens.
- Mass plant as ground cover.
- Can be used as informal edging.
- Dramatic effect in general garden use.
- Highlight foliage by using mulch of pebbles or light coloured gravel.

## CULTURAL CARE

Prefers a full sun location to part shade location in most soil types given good drainage. Low watering requirements withstanding some dryness but should be watered regularly during extended periods of heat. Frost tolerant once established but protection should be given if frost period is prolonged.

No pruning required. An application of a slow release fertiliser in spring would be beneficial to overall performance.
