

Oenothera speciosa 'Twilight'

Height: 30cm

Spread: to 1m

FULL SUN

GROUND COVER

CONTAINERS

MIXED BORDERS

LONG FLOWERING

POLLINATOR PLANT

DRY TOLERANT

FEATURES:

- Striking form of evening primrose with new growth emerging as a deep plum colour.
- During warmer months a prolific display of large, soft pink flowers cloak the foliage.
- Hardy, easy to grow and dry tolerant.

SUGGESTED USES:

- Mass plant low maintenance areas.
- Containers and general garden use.
- Rockeries or embankments.
- Wildflower style gardens.

CULTURAL CARE

Low maintenance and easy to grow.

Dry tolerant once established requiring only occasional long soak during extended periods of heat.

Best grown in full sun, although will tolerate some shade. Growth may be herbaceous in extreme cold. Plant in most soil types that are well draining.

Apply a slow release fertiliser during spring for best results.
