

Origanum rotundifolium 'Dingle Fairy'

Height: 40cm
Spread: 80cm

FEATURES:

- Forms soft, cushy mound of ornamental and aromatic foliage.
- Small, shrimp-like flower stems of soft pink bracts appear from spring through to autumn.
- Dry tolerant for water wise gardens.
- Attracts pollinators.

SUGGESTED USES:

- Ideal for mixed containers or hanging baskets.
- Edging or mixer plant for herb/vegetable gardens.
- For ornamental use only.
- Will trail over ledges or rockeries.

CULTURAL CARE

Dry tolerant once established but will benefit from occasional deep watering during extended periods of heat. Avoid 'wet feet' by growing in well draining soil. Suited to full sun location. In colder regions may become herbaceous with fresh new foliage re-appearing in spring. Pruning generally not required although older foliage can be trimmed back to tidy if required. Feed with a slow release fertiliser during spring for optimum results.
