

Phlox paniculata 'Purple Kiss'

 Height 60cm
 Spread 60cm

FEATURES:

- Long stems of purple coloured, fragrant blooms.
- A lengthy display from summer through to late autumn.
- Fast growing and low maintenance.
- A favourite of many pollinators.

SUGGESTED USES:

- Ideal for showy display in mixed flower borders.
- Makes a great cut flower for vase.
- Grows well in larger sized containers.
- Use individually or plant groupings for dramatic colour display.

CULTURAL CARE

Suited to most soil types which are moist but well draining. Low water requirements once established but do not allow to dry out during extended periods of heat. During display period remove spent flower stems to promote new blooms then in late autumn cut foliage back hard to promote a dense habit. Apply a slow release fertiliser during early spring for best results. May become herbaceous in areas with heavy frosts with fresh foliage re-appearing in spring.
