Pelargonium hybrids SHADOWS™ range

 Height 50cm
 Spread 50cm

FEATURES:

- New foliage emerges as deep purple to black as a striking foil for the colourful blooms.
- A prolific display of brightly coloured flowers from late winter through to autumn.
- Naturally neat and compact habit.
- Easy to grow and fast results in gardens or containers.

SUGGESTED USES:

- Containers or general garden use.
- Mass plant in low maintenance areas or filling spaces in mixed borders.
- Attracts pollinators.
- Fast results in new gardens.

CULTURAL CARE

Grows well in most soil types which are moist but well draining.

No pruning is generally required although a light trim after a main flowering flush will encourage further displays and encourage a dense habit. Apply a slow release fertiliser during spring.
