

Phygelius aequalis 'Snow Queen'

 Height 60cm
 Spread 60cm

FEATURES:

- A dwarf, compact variety suitable for small gardens and large containers.
- A lengthy display of crisp white, tubular flowers are produced from spring to late autumn.
- Hardy, water wise and low maintenance.

SUGGESTED USES:

- Ideal for mixed flower borders or beds.
- Fast growing for a wide range of positions.
- Grows easily in larger sized containers.
- Pollinator friendly plant.

CULTURAL CARE

Suited to most soil types which are well draining. Low water requirements once established. Prune up to half the original plant size during early spring to encourage neat, dense habit. Apply a slow release fertiliser during early spring for best results. May become herbaceous in areas with heavy frosts with fresh foliage re-appearing in spring.
