

Pulmonaria 'Diana Clare'

Height 30cm
Spread 50cm

PART SHADE

FULL SHADE

GROUND COVER

CONTAINER

ATTRACTIVE FOLIAGE

MIXED BORDERS

FEATURES:

- A prolific display of violet blue and occasional magenta coloured flowers from late winter through spring.
- Clump forming perennial with ornamental foliage of green sprayed with silver.
- Easy to grow and ideal for containers or general garden use.

SUGGESTED USES:

- Mass plant as ground cover for shady or lightly shaded areas.
- Containers or small spaces.
- Woodland style gardens.

CULTURAL CARE

Grows well in most soil types which are moist but well draining. Pruning generally not required although removing spent flower stems from the base will encourage further flowering and fresh new foliage. Mulch well to help retain moisture.
