

Phlox hybrid 'Minnie Pearl'

 Height: 30cm
 Spread: 45cm

FEATURES:

- Earlier flowering and shorter in habit than other varieties.
- Long flowering perennial topped with masses of clustered, crisp white flowers from early spring to autumn.
- Mildew resistant with a slow spreading habit.
- Attracts butterflies and lasts well as a cut flower.

SUGGESTED USES:

- Cut flower gardens.
- Rockeries or containers.
- Small gardens or spaces.
- Fast results for new gardens.
- Mixed borders and general garden use.

CULTURAL CARE:

Prefers an open, well draining soil in a full sun location although afternoon shade will be tolerated. Medium watering requirements withstanding some dryness but should be watered regularly during extended periods of heat. Apply a slow release fertiliser in early spring. Cut back by half and apply slow release fertiliser after each flush of flower. Frost hardy.

Perennial Phlox originates from eastern regions of the United States of America and is grown worldwide for its reliable garden performance and generous flowering displays. The genus name *Phlox* comes from the Greek literally meaning 'flame' - referring to the glowing display of colour. Flower stems last well in floral arrangements and offer a sweet fragrance. Ideal for creating mixed borders of frothy colour when blended with other cottage perennials such as Penstemon BELL TOWER range, Gaura 'Crimson Butterflies', Cosmos 'Chocoholic', Agastache FIESTA range as well as other members of the Phlox family such as P. 'Amethyst'.
