

FISHER Signature Salvias™ - OCEAN BLUE

Salvia JF001-8

This plant is a registrable plant variety under section 43(6) of the Plant Breeders Rights Act 1994.

 Height: 1m
 Spread: 1.2m

FEATURES:

- Compact form - neat and dense habit.
- Deep, clear blue coloured flowers are produced over a long display period.
- Very hardy and water wise plant once established.
- Nectar for pollinators - particularly birds.

SUGGESTED USES:

- Vibrant colour for entertainment areas.
- Fast results for new gardens.
- General garden use.
- Cottage or wildflower style gardens.

CULTURAL CARE

Low maintenance and easy to grow in most soil types which are free draining. Watering requirements are low once established requiring only occasional deep watering over extended periods of heat.

Prune up to one third of overall size after main flowering to encourage dense bushy habit.

Apply a slow release fertiliser during spring for optimum results. Protect from frost.
