

Spirea x bumalda
DOLCHICA

60cm 90cm

FULL SUN

FEATURES

Clusters of deep magenta flowers produced from spring into summer.

Attractive, textural foliage forms a neat, domed shrub.

Foliage takes on autumn colours.

Fast results with no fuss in gardens or large containers.

Flowers attractive to pollinators.

MY GARDEN SOLUTIONS®

FOR

Bright colour for entrance ways and entertainment areas over many months.

Perfect for patio containers or dotted through a mixed garden bed.

Attracts many types of pollinators.

Fast results for new gardens or for filling spaces.

CARE

Water when dry for first 6 weeks after planting and regularly in dry weather.

Prune older foliage back in early spring to encourage new growth for better flowering.

Apply a slow release fertiliser during spring.

Can become deciduous in colder climates.
