

Scabiosa caucasica 'Fama White'

 Height 60cm
 Spread 50cm

FEATURES:

- Long flowering - from spring through to autumn.
- Large, pin-cushion flowers are highly attractive to butterflies and other pollinators.
- Fast growing and low maintenance.
- Dry tolerant for water wise landscapes.

SUGGESTED USES:

- Flowers last well cut for vase arrangements.
- Containers or general garden use.
- Perfect for cottage or wildflower style gardens.
- Plant in drifts of 2-3 plants for high impact.

CULTURAL CARE

Grows well in most soil types which are moist but well draining. Dry tolerant once established but should not be allowed to dry out during extended periods of heat. Trim lightly to shape after main flowering flush. Remove spent flowers to encourage a longer display.

An application of slow release fertiliser during early spring is recommended for optimum results.
