

Scutellaria suffrutescens IB001-2

This plant is a registrable plant variety under section 43(6) of the Plant Breeders Rights Act 1994

 Height: 30cm
 Spread: up to 60cm

FEATURES:

- Flushes of red snapdragon-like flowers cover the low mounding foliage from summer through to autumn.
- Fabulous for small spaces or edging and will spill over walls and rockeries.
- Salt, wind and dry tolerant once established.

SUGGESTED USES:

- Mixed borders and containers.
- Makes an attractive ground cover for small areas.
- Pollinator friendly plant.

CULTURAL CARE

Grows well in most soil types which are well draining. Dry tolerant once established requiring only occasional deep watering during periods of extended heat. Avoid waterlogged conditions.

An addition of a slow release fertiliser in spring recommended.

No pruning generally required.

Mulching helps to retain moisture during warmer months.
