

*Silene dioica* 'Rollie's Favourite'

 Height: 45cm  
 Spread: 50cm

FULL SUN

PART SHADE

MIXED BORDERS

CONTAINERS

POLLINATOR  
PLANT

## FEATURES:

- Forms a mound of foliage producing sprays of starry pink flowers from spring into summer.
- Semi trailing habit for softening walls and over rockeries.
- Attractive to butterflies.
- Easy to grow and low maintenance.

## SUGGESTED USES:

- Ideal for cottage or wildflower gardens.
- \*Suitable for gravel gardens and rockeries.
- Suitable for containers, hanging baskets and general garden use.

## CULTURAL CARE

Low maintenance and easy to grow in most soil types which are moist and free draining. Watering requirements are low once established requiring only occasional deep watering over extended periods of heat. Removing spent flower stems with encourage a neat habit and extend display. Apply a slow release fertiliser during spring for optimum results.
