

## *Sutera cordata* 'Starlight'

Ground cover  
or trailer

### FEATURES:

- Neat, evergreen foliage spreads up to 1m.
- Generous studded display of flowers from spring through to autumn.
- Easy to grow with little maintenance.

### SUGGESTED USES:

- Containers or hanging baskets as well as general garden use.
- Will cascade over rockeries, walls etc.
- Low light situations.
- Mass plant as an ornamental ground cover.
- Small gardens or narrow spaces.

### CULTURAL CARE

Grows well in most soil types which are well draining. Once established will tolerate dryness well although regular long soaks during extended periods of heat is recommended. Trim lightly and apply slow release fertiliser during late summer or early autumn to rejuvenate growth and encourage a dense habit.

Originating from southern Africa, this dainty flowering ground cover is also a favourite for hanging baskets as the blooms will appear all along the cascading foliage. Most dramatic effects are achieved when mass planting to form soft edging for shady paths or cascading from retaining walls. Ideal for mixed container displays where it should be contrasted with larger foliage perennials such as Brunnera 'Sea Heart' or Pulmonaria 'Electric Blue'. For romantic blends partner with Anenomes 'Pamina' and A. 'Bowles Purple', Campanula 'Barbara Valentine' and Nemesia 'Blueberry Ripple'.
