

Salvia 'Heatwave Flash'
Soft lemon coloured flowers

Salvia 'Heatwave Inferno'
Vibrant red coloured flowers

These plants are registrable plant varieties under section 43(6) of the Plant Breeders Rights Act 1994.

  Height: 70cm
Spread: 1m

FEATURES:

- Very tolerant of dry conditions.
- Produces massed displays of flowers through the warmer months.
- Aromatic foliage and compact habit.
- Attracts bird life and pollinators.
- Bred in Australia by PGA Innovabred.

SUGGESTED USES:

- Fast results for new gardens.
- Lengthy colour for mixed borders.
- Large containers or general garden use.

CULTURAL CARE

Grows well in most soil types which are well draining. Dry and frost tolerant once established. Prune after main flowering to encourage faster re-bloom and to maintain a neat habit. Apply a slow release fertiliser in spring to improve overall vigour.

Salvias are a water wise family that thrive in sunshine and dry, open soils. This series is a compact range specially bred for a dense, neat habit and long lasting flower displays in a number of clear, vibrant colours!
