

*Salvia buchananii* hybrid 'Wendy's Wish' 

  Height: 80cm  
Spread: 80cm

## FEATURES:

- Large, vibrant magenta flowers right throughout the warmer months.
- Tubular flower capped with a colourful calyx which remain some time after flowering, extending interest even longer.
- Mid-green foliage is dense and lush, complimented by dark maroon stems.
- Produces massed displays of vibrant magenta coloured flowers through the warmer months.
- Discovered by an Australian Salvia enthusiast.

## SUGGESTED USES:

- Fast results for new gardens.
- Mass plant in drifts for stunning, low maintenance displays.
- Lengthy colour for mixed borders.
- Great in large containers.
- Cottage or wild flower style gardens.

## CULTURAL CARE

- Low water requirements once established.
- Prefers a rich but well draining soil.
- Trim off around one third of size after flowering to maintain compact habit and encourages further displays.
- Feed in spring with slow release fertiliser.

Part proceeds are donated to Make-A-Wish® Australia. Look out for others in the Wish Collection - 'Ember's Wish' and 'Love and Wishes'.
