

Thymus longicaulis PINK BUTTONS

Spreading ground cover

FULL SUN

CONTAINER

ATTRACTIVE FOLIAGE

AROMATIC FOLIAGE

DRY TOLERANT

MIXED BORDERS

POLLINATOR FRIENDLY

FEATURES:

- Low growing, mat forming foliage ideal for mass planting low maintenance areas or to cascade over walls, rockeries etc.
- Aromatic foliage will tolerate moderate foot traffic if used between pavers or stepping stones.
- Masses of rounded pink flower heads are produced over spring.
- Pollinator friendly.

SUGGESTED USES:

- Weed suppressant for low maintenance areas.
- Edging pathways, filling around flagstones or larger spaces between pavers.
- Will spill over walls or down embankments.
- Containers and hanging baskets.
- Gravel/low water gardens and general garden use.

CULTURAL CARE

Select a sunny location in most soil types that are well draining.

Once established, quite dry tolerant requiring only occasional long soaks during extended periods of heat.

No pruning required. Fertilise after flowering.
