

Verbena

DRUMS Blue White

FEATURES

Early blooming and long flowering - from spring continuing through warmer months.

A bountiful display of vibrant, duotoned, lavender blue coloured flowers with white centers.

A compact, low spreading habit ideal for flower borders, containers and baskets.

Easy to grow and fast results.

USES

Containers, baskets and general garden use.

Mass plant for high colour impact in sunny mixed borders.

Attracts pollinators.

CARE

Grows well in most soil types which are moist but well draining - does not like to sit in wet conditions for long periods of time.

Lightly trim off spent flowers after a main flowering flush to encourage a dense habit.

Apply a slow release fertiliser during spring.

Mulch well to help retain moisture during dry periods.

Fertilise regularly if grown in containers.
