

Westringia hybrid SMOKESCREEN

This plant is a registrable plant variety under section 43(6) of the Plant Breeders Rights Act 1994.

 Height to 80cm
 Spread 80cm

FEATURES:

- A prolific display of purple coloured flowers over most seasons.
- Australian native.
- Dense deep green foliage responds well for trimming into formal hedges or topiary work.
- Compact, fast grower for really quick results.
- Low maintenance, dry tolerant and very easy to grow.

SUGGESTED USES:

- Ideal for native gardens and general garden use.
- Can be grow in large tubs and trimmed as topiary.
- Suitable for low maintenance areas.
- Tolerant of coastal or dry conditions.

CULTURAL CARE

Plant in any soil that is well draining. Dry tolerant once established but should be given occasional deep watering during extended periods of heat.

For best results, feed in spring with a slow release fertiliser. Can be left unpruned in natural settings or clipped as required to maintain a desired size or shape.

If growing in containers do not allow to dry out completely. For hedging space plants at approx. 60cm intervals.
